

Pre & Post Workout Snack Guide

What to eat before and after training, when to eat it and 20 quick snack ideas.

Before training (60-90 min)

- Aim for easy carbs with a little protein.
- Banana and a yoghurt; toast with honey; oats with milk; rice cakes with peanut butter; a small bowl of cereal.

After training (within 2 hours)

- Aim for 20-40 g protein plus carbs.
- Chicken wrap; Greek yoghurt with berries and granola; tuna pasta; eggs on toast; milk-based protein shake and a banana.

10 more grab-and-go ideas

- Cottage cheese and pineapple
- Hummus and pitta
- Boiled eggs and fruit
- Edamame
- Chocolate milk
- Jerky and an apple
- Skyr pot
- Turkey slices on crackers
- Trail mix
- Overnight oats

Hydration

- Drink a glass of water 1-2 hours before training and sip during.
- Pale-yellow urine is a simple sign you are drinking enough.
